

A portrait of Dr. Elahe P. Wissinger, a woman with long, wavy, light brown hair, smiling warmly. She is wearing a white short-sleeved button-down shirt with a floral pattern of purple and yellow flowers. The background is a textured, light-colored wall.

Elahe P. Wissinger, DMD

E Dental Solutions

Dr. Wissinger received her degree from Boston University and has been practicing general dentistry for 11 years. In addition to general, cosmetic, implant and reconstructive dentistry, Dr. Wissinger offers invisible braces using the Invisalign system. She has a passion for cosmetic/implant dentistry because of the “Profound effects it has on those who receive the services. It drastically improves their self image and confidence level. I also enjoy connecting with people while providing the best services available and creating relationships that will last a lifetime. My most memorable case involved working with a woman with badly decayed upper front teeth. She didn’t smile

much and when she did, she covered her mouth. After a smile makeover, her personality changed. Now she smiles all the time. Her husband said she hasn’t stopped smiling!” Her advice for those thinking about getting into dentistry: “Don’t get into it for the money. If you are creative, artistic, like working with people, a good listener and immensely compassionate, then this is the right field for you.”
